ENCORE: Change the World with Positive Thinking AND Positive Action

Financial literacy guru Sharon Lechter brings a classic story into print to help us overcome the limitations of these uncertain economic times. She drew wisdom from a writer of The Great Depression, Napoleon Hill, who achieved enduring fame for his best-selling book, **Think and Grow Rich**. She delivers his messages of wisdom and triumph over failure in the secular book that was suppressed in his time, **Outwitting the Devil, The Secret to Freedom and Success**.

Earlier, Sharon wrote **Think and Grow Rich, Three Feet from Gold** to modernize Napoleon Hill's philosophy of positive thinking and success for today's public. Now, she is sharing Hill's equally important messages: his thoughts on failure and fear and how we must adjust to life's ups and downs.

Listen for one of Hill's most important views on failure in this conversation, "Just fail faster." Then you can get past it and on to your next success. Hill also said that the worst four-letter word is fear, which he calls "The Devil." Fear will prevent you from taking any positive action and fear of failure can completely paralyze you.

Listen to more empowering advice from Sharon Lechter, creator of the award-winning game, **Thrive Time for Teens**, and founder of **Pay Your Family First**. Find out how you can transform the thoughts that keep you a negative non-producer into thoughts that enable you to be a positive achiever and take advantage of the opportunities all around you today.
